Cylons are coming from the unknown.
Want to destroy the life on earth.
Attacking with more than a thousand
battleships.
Want to rule the universe.

Our air force had no chance,
shooting down in the air.
They were the losers,
they we re no survivors.

refrein

Running,...
we tried to run away from this nightmare,...
Hiding,...
in places we've never been before,...
Thinking,...
we could live in a world of peace forever,...
Now we realize we must fight to survive.
Crying,...
too late now, they show no remorse,...
Hoping,...
is all that we can do.

couplet III

The invaders killed the armed forces.
Treated the scared people bad.
They're prisoners and slaves now.
The iron man are so mad.

There is no human faith,
for that it's now too late.
You won't belong to the scared mass.
Hell for you, don't sound great.
